PUROTWIST

If you want...

High Quality Drinking Water, Clear & Clean Ice Cubes,
Delicious Coffee, Tea & Beverages, and Water for Pets & Plants.

Ice cubes, lemonade,

soups, steamed veggies,

popsicles, baby formula,

pets, plants, aquariums.

The **PUROTWIST 4000 REVERSE OSMOSIS** semi-permeable membrane rinses contaminants to the drain. High quality, filtered drinking water is produced and conveniently stored in a sealed tank. The **PUROTWIST 4000** lead-free faucet easily delivers an abundant supply of clear, clean, and fresh drinking water to you and your family.

Four Stage Purification Process

Stage 1 5 Micron Sediment Filter: Removes dirt, sediments, sand, and other physical particles.

Stage 2 Carbon Block: Reduces chemicals such as chlorine, that may be present in your water supply.

Stage 3 Reverse Osmosis Membrane: 36 gallon per day membrane removes 93-97% of dissolved mineral salts and other contaminants in the water supply.

Stage 4 Post Carbon Filter: A final polishing process that enhances and clarifies your drinking water.

The Water Quality Association (WQA) Gold Seal represents the most credible and independent testing and validation entity in the water industry. The WQA's Gold Seal represents quality assurance through comprehensive testing and continuous research and evaluation of water treatment technologies.

Contaminant Reduction:
Lead, Fluoride, TDS,
Chromium, Barium,
Cadmium, Nitrate, and
Chromium (III) Nitrate.
