U.S. Patent No. 4,857,189 EPA Est. 039861-WI-001

Culligan®

Model SY-1000

Easy Change Under-Sink Drinking Water Filter System

The Culligan® SY-1000 Easy Change Drinking Water Filter System is a complete, compact under-sink filter. An exciting and unique feature of this product is the no-hassle, no-mess design for cartridge replacement. A simple twist of the wrist releases the used cartridge — another twist of the wrist attaches the fresh cartridge. No more struggles with fittings or water buckets and no need to come into contact with dirty filters. There is virtually no spillage of water during the replacement process and no tools are required!

This system reduces lead, *Cryptosporidium*, *Giardia*, lindane, atrazine, chlorine, bad taste and odor, and sediment. Filtered water is within easy reach with this product that includes a lead-free faucet that fits through the sprayer hole of most kitchen sinks. Filter life is 6 months or 500 gallons. Great-tasting, healthier water for drinking and cooking whenever you want it is available with the Culligan SY-1000 System.

Replacement Filter Cartridge

- 
- 1000R: Lead/*Giardia* and *Cryptosporidium*/Lindane and Atrazine/Chlorine/Bad Taste & Odor/Sediment**
- 99% reduction of lead (pH 6.5)
 - Reduces Lindane and Atrazine (a pesticide and herbicide)
 - >99.99% removal of disease-causing *Giardia* and *Cryptosporidium* cysts
 - Chlorine, bad taste and odor reduction
 - 0.5-micron (nominal) filtration
 - CBC® activated carbon block with lead-reduction media
 - Filter life up to 6 months or 500 gallons

Tested and Certified by NSF International against ANSI/NSF Standard 42/53 in models IC-1000, SY-1000 and SY-1000S. See Performance Data Sheet in Manual for specific claims.

U.S. Patent No. 4,857,189 EPA Est. 039861-WI-001

NOTE: Contaminants or other substances removed or reduced by this water treatment device are not necessarily in your water.
